

# Top 10 reasons to refer to the Army Substance Abuse Program (ASAP) Wyoming Army National Guard.

- 1. AR 600-85 : \*Increase individual fitness and overall unit readiness.**
  - \*Provide services which are proactive and responsive to the needs of the Army's workforce. Emphasize alcohol and other drug abuse deterrence, prevention, education, and rehabilitation.
  - \*Implement alcohol and other drug risk reduction and prevention strategies that respond to potential problems before they jeopardize readiness, productivity, and careers.
- 2. Prevention and treatment.**

(AR 600-85, 1-7) Prevention: All measures taken to deter and reduce the abuse of alcohol and other drugs to the lowest possible level. Prevention for readiness involves the commitment of command resources, policies, installation organizations, and community members to create and foster conditions that promote mission readiness and enhance Army well-being.
- 3. Intervention and assessments.**

**Identification of High Risk Units**

  - The Unit Risk Inventory (URI) and Reintegration Unit Risk Inventory (R-URI) surveys help commanders determine the actual occurrences of high-risk behaviors. Soldiers complete these surveys anonymously.
  - The URI assesses units while at home station, and should be administered no later than 30 days prior to deployment.
  - The R-URI assesses issues affecting unit readiness and personnel well-being that may have occurred during deployment or since returning, and should be administered 60 to 180 days after returning home from an operational deployment.
- 4. Illegal drug use and intervention**
- 5. Intervention with prescribed/over the counter medication**
- 6. Intervention with Alcohol abuse and misuse**
- 7. Self-referrals**
- 8. Information and referral**
- 9. Risk reduction and mitigation plans**
- 10. Coordination of services**
